

Corporate risk management

We offer risk management solutions for enterprises, organisations and the public sector based on our broad, long-term experience. Our client-oriented risk management services are based on risk assessments, action plans and collaboration with the authorities as necessary.

Corporate risk management professionals

We provide enterprises with risk management packages by combining modern technological solutions with extensive risk management competence. Our experts help you identify the risks in your enterprise and protect against them.

Our comprehensive risk management package consists of up-to-date situational awareness and of risk and resilience assessment. We use a variety of information gathering methods accessing public-domain sources.

Our service may include security consulting, analyses, deployment coordination and monitoring, and training services. The purpose of the package is to identify and prevent risks in your enterprise and to help improve the resilience of your enterprise.

Risk management resources

As part of our comprehensive risk management package, we can offer you the services of a security expert or head of security, assigning one of our professionals to your enterprise on a part-time or full-time basis to serve as a risk management resource. The job description and duties of this professional are customised to the needs of your enterprise.

Our risk management services include:

- Comprehensive risk management services
- Consultant services
- Security planning services
- Background studies
- Open source intelligence and situational awareness services (OSINT)
- Conflict resolution in the workplace
- Detection of crimes and abuses
- Travel security services, including modern mobile technology solutions
- Training for corporate management and personnel
- Evacuation, fire, rescue, accident and other drills
- Penetration testing services
- TSCM facilities inspection services
- Executive Protection services
- Logistics security escort services

Contact us and we will design a solution for you!
